# Extreme Programming

- In 1996 Kent Beck introduced Extreme Programming
- Based on an interactive approach to software development
- Intended to improve software quality and responsiveness
- One of the first Agile process

# The Agile Manifesto

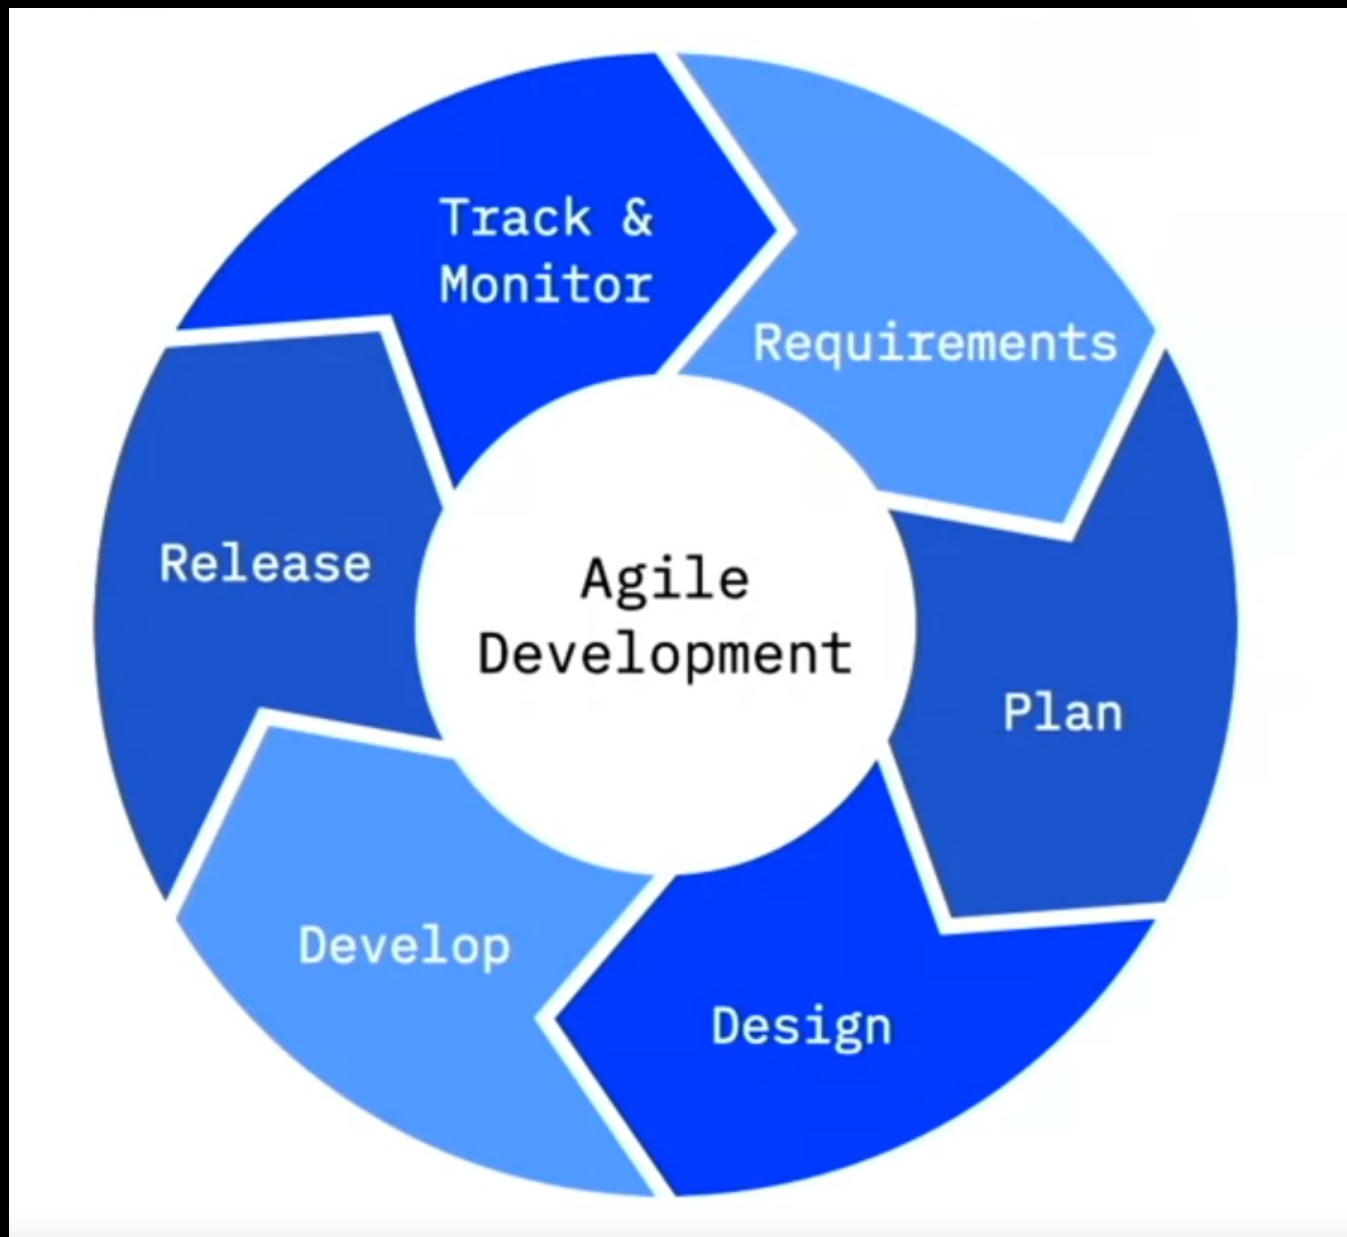

We have come to value:

- Individuals and interactions over process and tools
- Working software over comprehensive documentation
- Customer collaboration over contract negotiation
- Responding to change over following a plan

# Shadow IT

- Resources the business does not know about
- People go around IT

That is, while there is a value in the items on the right, we value the items on the left more
